WELCOME FROM THE CO-CHAIRS

Dear Colleagues,

Welcome to the ARIAS-US 2024 Spring Conference: **Global Currents: Expanding Arbitration Expertise, Knowledge and Connections!** We are so pleased that you have chosen to join us for three days of engaging programming, debate, and networking. This year's conference builds upon ARIAS's theme for 2024 - - Enhancing the core, Expanding the reach - - by exploring different approaches to the resolution of (re)insurance disputes. One of the best ways that we can learn from one another is by engaging with some of the new faces you will see this week. If you have not done so already, the Member Services Committee encourages you to sign up for the Ambassador Program, which will afford you with opportunities to expand your networks. Please ask the ARIAS staff if you have any questions about it.

The conference faculty put together a lineup of compelling presentations. We will begin with a Keynote speech from Puerto Rico's former governor and U.S. Representative, Luis G. Fortuña, followed by:

- A lively debate between arbitrators over the most effective arbitration practices and tactics;
- A presentation analyzing the art of persuasion;
- A session highlighting the similarities and differences between US and UK arbitrations;
- Two panels exploring unique aspects of the insurance and reinsurance business in Puerto Rico and Latin America; and
- An ethics panel debating whether ARIAS needs ethical enforcement mechanisms.

In addition, delegates may select two breakout sessions addressing the following issues:

- Recent developments involving COVID-19 property cat loss presentations;
- Data based economic damage modeling;
- The arbitrator's role in fostering settlement discussions;
- The impact of political risk insurance in today's volatile world;
- Alternatively, delegates who wish to do so may select a morning networking breakout.

We are thrilled to share that we will kick off the conference and ARIAS's 30th Anniversary with a dynamic celebration Wednesday evening. There will be drinks, music, and fantastic local food (including a pig roast!!). A huge thank you to the sponsors who are making this evening possible!

The conference will be conducted in accordance with the ARIAS-U.S. Antitrust Policy, which is available in the "About ARIAS" section of the website, at www.arias-us.org. All program materials will be provided electronically in advance.

See you at the Fairmont El San Juan Hotel!

Sincerely,

Jane Mandigo

WELCOME TO THE 2024 ARIAS·U.S. SPRING CONFERENCE!

May 1 - 3 | Puerto Rico

ATTIRE: The general dress code for the conference is “business casual.” This means that while speakers and panel members may be in business professional attire with a tie or suit jacket, it is not a requirement for attendees. Usually at these conferences, attendees will dress up a bit more for the evening reception.

BADGES: Conference badges will be issued to all attendees. Please wear your badge at all times to access all conference functions.

SESSION MATERIALS: For conference attendees, session materials are available on the ARIAS·U.S. website.

BREAKOUT SESSION ROOM ASSIGNMENTS: Room assignments for the Breakout Sessions are included in the program on pages 7 & 8. Please refer to the list for the assigned session room. Be sure to attend your assigned session. Breakout Session Room Assignments can be located on the back of your name badge.

CONTINUING LEGAL EDUCATION: Continuing legal education credits will be awarded for the State of New York and Pennsylvania and are pending for Illinois. Sign-in and sign-out sheets are for attorneys who wish to receive CLE Credit. Certificates of attendance will be based solely upon these sheets and the attestation form that you will receive via email with the survey at the end of the conference. You must sign in and out for each session each day to receive credit for the sessions you attend. There will be sign in and out sheets on tables inside the General Session. The sign in and out sheets for all sessions will be on tables inside each room, and signage will be displayed clearly for each session. Make sure you sign in and out of the

various sessions with the time you arrive and the time you leave in order to receive full credit. Certificates of attendance will be sent via email to everyone who has signed in and out. This is required by the New York State CLE Board.

ARIAS·U.S. CERTIFICATION: Anyone receiving credit for ARIAS·U.S. Certification does not have to sign in and out and will not be provided with a certificate of completion for the training.

OBTAINING CREDIT FOR THE CONFERENCE: You will not receive full credit for a session if you are standing in the hallways or arrive late or leave early. The training is taking place in the session rooms; you must be inside. This is true both for CLE training and for ARIAS·U.S. Certification credit. To be clear, anyone who is attending for ARIAS·U.S. certification renewal or for initial certification and who is not in the session rooms will be considered as not completing the attendance requirement for certification/recertification.

OPINIONS AND COMMENTS: Opinions and comments expressed in the enclosed materials and during the conference sessions are not necessarily those of ARIAS·U.S., the firms or companies with which the speakers are associated, or even the speakers themselves. Some arguments are made in the context of fictitious disputes to illustrate methods of handling issues; others are individual opinions about the handling of an issue. Every dispute or matter presents its own circumstances that provide the context for decisions.

We hope you enjoy the conference!

Sponsored by: **Munich RE**  

Harnessing Data and Analytical Tools for Large Complex Economic Damages

Bennett 1

Simon Oddy, *BakerTilly*

Brendan Gray, *BakerTilly*

Eileen Sorabella, *Arch Re*

How do you see the woods when there's so many trees?" During the sessions, forensic accountants will discuss and showcase the power of data analytics and complex analysis modeling, which allows insurance and legal professionals to better understand the potential financial outcomes of a large complex litigation. These tools are beneficial both when there is a lack of sufficient data or an overwhelming volume of data. Sessions will explore different forms of analysis, such as scenario-based modelling and decision tree analysis enabling loss measurement and legal argument to work in harmony to support case strategy.

How Should Arbitrators Address Potential For Settlement With the Parties? Opportunities, Limits and Ethics

Palmieri II

David W. Ichel, *X-Dispute LLP*

Elaine A. Caprio, *Caprio Consulting*

Carlos A. Romero, *Post & Romero LLP*

Silvia Marroquin, *Chaffetz Lindsey LLP*

Arbitrators often see that the parties would benefit from a compromise settlement of the case before them that cannot be delivered in an arbitration Award. This panel will address and interact with participants on what tools may or may not be appropriate toward fostering settlement and the appropriate times for such actions, including scheduling a "mediation window", bifurcation of liability and quantum, inquiring whether the parties have discussed settlement, presenting panel questions meant to highlight the risks on both sides, "ArbMed" or "Med-Arb", other party-agreed arbitrator participation in settlement efforts, ethical limits and approaches of the various arbitral institutions and rules.

Hot Off the Presses: Recent COVID UK, Life & Voluntary Payments Doctrine Cases

Palmieri I

Bruce Friedman, *Gallo Vitucci Klar*

Shermineh Jones, *Troutman Pepper*

Daryn Rush, *O'Melveny & Myers*

This breakout session provides in-depth and interactive discussions about three recent cases that have garnered great interest in the (re)insurance community. First, Daryn will address the recent Foxton, J ruling from the English Commercial Court on the appeal of two English arbitrations involving COVID-19 property cat loss presentations [Unipol v Covea / Markel v General Re [2024] EWHC 253 (Comm)]. Under the format for this breakout session, Shi and Bruce will ask Daryn questions and participate in a collaborative discussion after Daryn briefs the audience on the decision. Second, following the same format, Shi will present on the McHugh v. Protective Life Insurance Company decision from the California Supreme Court, involving the application of California's anti-lapse statutes and its potential impact on life insurers and their reinsurers. Third, Bruce will regale us with the latest decision from the New York State Appellate Division in the Utica v. Munich saga, in which the court analyzed the voluntary payments doctrine after ruling that Munich was not obliged to reimburse Utica's billing of expenses in addition to limits. We look forward to a robust discussion including audience participation.

Hot Spots and Hot Policies: Political Risk Insurance in Today's Volatile World

Bennett II

James Hosking, Chaffetz Lindsey LLP
Carolyn Thomas, AON

Recent high profile global conflicts and economic collapses have cast a spotlight on the extent to which parties can use political risk insurance (PRI) products to mitigate against financial losses arising out of geopolitical events. The panel will discuss the types of PRI available and interaction with other insurance lines, coverage and exclusion issues, and the application to "gray" areas like economic blockades. Speakers will also consider how the existence of PRI coverage may interact with claims brought under investment treaties for governmental expropriation and unlawful interference, as well as with other forms of risk mitigation like stabilization clauses. In addition, the panel will assess how PRI coverage may affect country risk for purposes of financial reporting and damages calculations.

Public nuisance claims have been successfully deployed against the tobacco industry and opioid supply chain, prompting similar cases involving climate change and social media. This session will then examine the coverage implications for these public nuisance claims, including where the insurance industry has found success, where it has been met with obstacles, and where it continues to work to garner favorable rulings.

THE ARIAS-U.S. 2024 SPRING CONFERENCE AND ANNUAL MEETING WILL BE CONDUCTED UNDER THE ARIAS-U.S. ANTITRUST POLICY

POLICY STATEMENT AND GUIDELINES CONCERNING ANTITRUST COMPLIANCE

ARIAS-U.S. is a not-for-profit corporation that promotes improvement of the insurance and reinsurance arbitration process for the international and domestic markets. ARIAS-U.S. provides initial training, continuing in-depth conferences and workshops in the skills necessary to serve effectively on an insurance/reinsurance arbitration panel. In addition, ARIAS-U.S. certifies a pool of qualified arbitrators and serves as a resource for parties involved in a dispute to find the appropriate persons to resolve the matter in a professional, knowledgeable and cost effective manner.

ARIAS-U.S. members include representatives of insurance companies, reinsurance companies, law firms and independent contractors with experience in the field. Some of the participants in ARIAS-U.S. meetings may be in competition with one another. For this reason, ARIAS-U.S. wishes to state unequivocal support for the policy of competition served by the antitrust laws.

The Policy of ARIAS-U.S. Requires Full Compliance with the Antitrust Laws

ARIAS-U.S. is firmly committed to free competition. In particular, ARIAS-U.S. stresses that members have and retain full and exclusive authority for making their own decisions in arbitrations or litigations in which they are involved, as well as in all of their business activities. ARIAS-U.S. does not in any way serve to facilitate agreements among competitors to coordinate their activities with respect to billing practices, collections, underwriting, or any other competitively sensitive activity of insurers or reinsurers. Rather, ARIAS-U.S. exists solely in order to provide educational and informational assistance in connection with the dispute-resolution process of arbitration or litigation.

Although the activities of ARIAS-U.S. are not intended to restrain competition in any manner, it is always possible that meetings involving competitors could be seen by some as an opportunity to engage in anti-competitive conduct. Good business judgment requires making substantial efforts to safeguard against any appearance of an antitrust violation -- both because ARIAS-U.S. has a firm commitment to the principle of free competition, and because the penalties for antitrust violations are severe. Certain violations of the Sherman Act, such as price fixing, are felony crimes for which individuals may be imprisoned or fined. In recent years, corporations have paid hundreds of millions of dollars in fines for these antitrust offenses. In addition, class actions and other treble damage claims by private parties are very expensive to litigate and can result in large judgments. Penalties might be imposed upon ARIAS-U.S., its individual and corporate members, and their individual representatives if they were adjudged to have violated the antitrust laws in connection with their ARIAS-U.S. activities. Members should not count on an antitrust immunity simply because insurance is a highly regulated industry.

It is the responsibility of every member of ARIAS-U.S. fully to comply with the antitrust laws in all ARIAS-U.S. activities. In order to assist members in recognizing situations that may raise the appearance of an antitrust problem, the meeting chair shall furnish at each meeting a copy of this Policy Statement and the following Guidelines.

Guidelines to Ensure Antitrust Compliance

Many ARIAS-U.S. members are skilled in the legal process and may be expected to understand their responsibility under the antitrust laws. Nonetheless, it is useful to state, as a reminder, some basic guidelines that will minimize potential antitrust risk.

1. ARIAS-U.S. members may freely discuss matters that are not competitively sensitive, such as legal developments, ethical principles, procedures, laws that affect the industry, ways to make proceedings more efficient, and technical problems involved in arbitration or litigation. It is permissible, for example, to draft sample arbitration clauses that parties may select on a voluntary basis.

2. ARIAS-U.S. meetings and activities shall not be used as an occasion to reach or attempt to reach any understanding or agreement among competitors -- whether written or oral, formal or informal, express or implied -- to coordinate their activities with regard to billing, collections, premiums, terms or conditions of contracts, territories or customers. Thus, for example, competing cedents (or competing reinsurers) should not agree with one another that they will require use of a particular arbitration clause, and especially should not agree that they will boycott parties that reject the clause.

3. The best way to guard against the appearance of such an agreement is to avoid any discussion of subjects that might raise concern as a restraint on competition. Accordingly, ARIAS-U.S. meetings and activities shall not be used as the occasion for competitors to exchange information on any competitively sensitive subjects, including the following:

(a) ARIAS-U.S. activities and communications shall not include discussion among competitors to coordinate their activities with respect to billing practices, collection activities, premium setting, reserves, costs, or allocation of territories or customers.

(b) ARIAS-U.S. members shall not use the occasion of any ARIAS-U.S. activities to discuss coordinated actions involving other competitors, suppliers or customers. Such discussions could be misconstrued as an agreement to boycott third parties. For example, if a member decides it will decline to pay certain types of billings from a customer, the member should not discuss this decision with a competitor, because a common plan on such a subject could be considered an unlawful conspiracy or boycott. Accordingly, ARIAS-U.S. members should not discuss any proposal: to coordinate policies or practices in, billings or collections; to prevent any person or business entity from gaining access to any market or customer; to prevent any business entity from obtaining insurance or reinsurance services or legal or consulting services freely in the market; or to influence the availability, terms, provisions, premiums or other aspects of any reinsurance policy or line of insurance.

4. A written agenda shall be prepared in advance for every formal ARIAS-U.S. meeting. Where practical, the agenda shall be reviewed in advance by counsel. The written agenda shall be followed throughout the meeting. Where minutes are kept, the minutes of all meetings shall be reviewed by counsel (if possible) and, after such review, shall be distributed to all members of the body holding the meeting. Approval of the minutes shall be obtained after review at the next meeting.

5. Members are expected to observe the standards of conduct stated above in all informal discussions that take place at the site of ARIAS-U.S. meetings, and in all communications concerning ARIAS-U.S. business.

6. If a member suspects that any unlawful agreements are being discussed, the member should leave the discussion immediately and should consult counsel.

7. Questions concerning these Guidelines may be directed to the Chairman of the Law Committee of ARIAS-U.S.
